Are you aware of the Association of Pet Boarding & Grooming?
Here are the benefits of membership and we invite you to join.

Who are we?

The Association of Pet Boarding & Grooming is the peak representative body for the Boarding & Grooming industry. Established in 1992 as a non-profit organisation by a group of independent business owners for many years have been successfully providing pet boarding and grooming members with much needed information, help and support to run their businesses efficiently and effectively.

We have the largest state based membership in Australia! With members throughout Queensland and NSW this Association represents business owners from a wide area.

If you are in business in the boarding or grooming industry then you are eligible to apply!

We also have Associate membership for business people considering entering the industry and need assistance.

Why join an association?

Every day decisions are being made by governments, bureaucrats, committees, boards ect. Many of these decisions have important consequences for the industry and business operators like you. Associations like this exist because business owners must be able to work together to help shape the environment in which their businesses operate. Businesses need associations that can help represent them with a voice to be heard on decisions and matters concerning them.

Change is inevitable! If you as a business owner don't act to influence changes then these changes would most likely be detrimental to the industry and more importantly you and your business. Membership of an Association gives you, especially small to medium operators, the strength and support in numbers you need to be heard. Being a member of an Association means you have access support, help and representation on many issues relating directly to you.

We have monthly meetings, newsletters, printed information brochures, codes of practice, insurance and consultant's contacts and more all designed to assist and help keep you informed plus a tremendous support network of like minded people there are many good reasons to join.

Plus members receive reduced rates on EFTPOS and a free listing advertising your business on our website the membership fee is worth more than just one of these benefits alone.

Apply today!
